MICHIGAN Taxpayer Guide

Dear Taxpayer:

With our varying tax laws under constant review and often changing, the task of sorting all the information put before you at this time of year becomes more and more difficult.

For the 2009 tax year, I hope to make that task a little easier by providing you with the “2010 Michigan Taxpayer’s Guide.” This booklet gives you the latest information on many of Michigan’s tax laws, in simple-to-understand English, put together in a single publication.

This booklet contains information for the 2009 tax year on property taxes, homestead property tax credits, farmland and open space tax relief, the home heating credit program, the Michigan Income Tax, the Michigan Business Tax, and other tax-related subjects. Your attention to the information contained in this booklet may ease the burden of filling out state tax forms and may even save you money. However, this booklet is not designed to provide you with line-by-line instructions for filling out state income tax forms. That information is provided by the Michigan Department of Treasury in the income tax instruction books that include your tax forms.

This year, the income tax rate is 4.35%, and the personal exemption for taxpayers and dependents on state income tax returns increases to \$3,600. The pension and annuity income deductions are larger, and the interest and dividend income deduction for senior citizens is larger. The income tax form also has special categories of personal exemptions known as the Michigan special exemptions. These exemption categories are in addition to your allowable federal exemptions and include age 65 or older, deaf, blind or disabled, and unemployment compensation that amounts to 50% or more of adjusted gross income. You may exempt \$2,300 of income for each special exemption category that applies to you, your spouse (if filing jointly), or dependents. There is also a \$300 exemption for taxpayers and each of his or her dependants who are qualified disabled veterans.

Most taxpayers may request that their income tax refund be directly deposited into a U.S. financial account of their choice. To request direct deposit, you must fill out the direct deposit portion of your MI-1040, MI-1040CR, or MI-1040CR-2. You may also file Form 3174 and attach it to your state income tax form.

This booklet was prepared in 2010 to provide taxpayers with useful information about their 2009 state taxes. It is not meant as a substitute for Michigan Department of Treasury tax instruction booklets.

As always, I welcome your comments on this booklet or any matter of legislative concern.

The tax forms have been included as an example for taxpayers. Anyone using these forms to file their state income tax and property tax credits should consult the department’s instruction booklets. Any references on these forms to page numbers refer to pages in the department’s instruction booklets and not to pages in this Taxpayer’s Guide.

MICHIGAN PROPERTY TAX

An important part of our state's tax structure has traditionally been the reliance on the general property tax for the funding of school districts, townships, villages, cities, and counties of the state. It has been the largest yielding tax of all of Michigan's state and local taxes, and it has long been a major source of revenue for the financing of the operating expenses of schools. With the passage of 1993 PA 145, however, local property taxes were eliminated as a source of funding for K-12 and intermediate school district school operating funding. With approximately 64% of the \$10.2 billion in total funding for schools eliminated, it became necessary to look for a new way to restructure Michigan's tax system. In 1994, the voters of the state of Michigan approved ballot Proposal A by a margin of 1,681,541 to 750,952 in a special election held on March 15, 1994. This proposal (Senate Joint Resolution S), in part, imposed an additional 2% rate on the sales and use taxes and capped the rate of annual increases in taxable value to the rate of inflation or 5%, whichever is less. When the property is transferred, it is assessed in the following year at one half of true cash value. For 2009, the inflation rate of -0.3% was negative.

In addition, 1993 PA 331 created the State Education Tax Act, imposing a six-mill state education tax levy on all property subject to the general property tax. Public Act 312 of 1993 allows local school districts to levy not more than 18 mills for school operating purposes or the number of mills levied in 1993 for school operating purposes, whichever is less. Principal residences and, pursuant to 1994 PA 136, qualified agricultural property are exempt from the 18-mill levy. A homeowner's principal residence is defined, in part, to mean that portion of a dwelling or unit in a multiple dwelling owned and occupied as the owner's principal residence. A homestead also includes all of an owner's unoccupied residential property adjoining or contiguous to the dwelling owned and used as the owner's principal residence, any portion of a principal residence rented or leased as a residence to another as long as that portion rented or leased is less than 50% of the dwelling's total square footage of living space, a life care facility, or property owned by a cooperative housing corporation and occupied as a principal residence by tenant stockholders.

Qualified agricultural property, in part, means unoccupied property and related buildings classified as agricultural or other unoccupied property and related buildings on that property devoted primarily to agricultural use. Property used for commercial storage, processing, distribution, marketing, or shipping is not qualified agricultural property, and an owner will not receive an exemption for that portion of the taxable value of the property used for a commercial or industrial purpose.

To be eligible for the homeowner's principal residence/qualified agricultural use property exemption in 2010, an owner of property must have claimed an exemption by filing an affidavit with the local tax collecting unit on or before May 1. Exemptions filed in prior years are valid until revoked. A husband and wife, filing income tax returns jointly, are generally entitled to no more than one principal residence exemption, although 2008 PA 96 allows a temporary, additional exemption for up to 3 years on an unsold homestead, and 2008 PA 43 allows a member of the Armed Forces to retain their exemption if they rent their home while away on active duty. To be eligible for the agricultural use property exemption on land classified for assessment purposes as agricultural, it is not necessary to file an affidavit unless the assessor requests it.

In addition to the 18 mills in local, nonhomestead property tax permitted to be levied under 1993 PA 312, a limited number of high-revenue school districts may levy supplemental "hold harmless" mills on a principal residence and, in some circumstances, on nonhomestead property. With voter approval, an intermediate school district may also levy up to three "regional enhancement" mills on all property for school operating purposes. School districts may, with voter approval, levy up to five mills for the creation of a sinking fund to construct and repair school buildings, and a school district operating a community college may continue to levy taxes for operation at a rate equal to the mills formerly authorized. With the expiration of such authorization, the district, with voter approval, may renew the millage authorization, levy additional millage, or both. Finally, an intermediate school district, pursuant to 1994 PA 258, may authorize certain millage for operating expenses, funding vocational-technical education programs, and special education programs.

A TAXPAYER'S GUIDE

When looking at the property tax changes in Michigan, it is helpful to realize that, with the exception of the state education tax, the property tax is really a general term for all the property taxes imposed by townships, school districts, counties, cities or villages, and other local units of government, which are all local in nature. Money raised through property taxes goes toward financing local services, such as police and fire protection; public education; the operation of city, village, township, and county governments; and financing special projects such as sewers, streets, or parks. All property taxes collected by local units of government, other than the state education tax which is sent to the School Aid Fund for distribution, are kept locally, and no part of that revenue is sent to or used by the state.

The property tax may be collected in the summer or the winter, or in some combination. Townships traditionally collected property taxes in the winter after the agricultural harvest, but most cities now collect city property taxes in a summer levy. School boards or intermediate school districts can request that a city or township collect half or all of their school taxes in the summer. If they fail to reach an agreement, the county treasurer or the school district treasurer can collect the summer school taxes. Community college levies are billed in December, but may be billed in July if the local tax collecting unit collects a summer tax. County extra-voted millage will continue to be collected in the winter.

In addition, under 2002 PA 244, the six-mill State Education Tax is now collected in the summer. Beginning with the July 2005 property tax billing, most of the county portion of property taxes is being collected in the summer rather than in the winter. This shift took place incrementally over a period of three years. As of July 2007, all of the county general property tax is collected in a summer tax levy.

The following is intended to provide you with general information about this tax, the assessment of property, the equalization process, what to do if you feel your assessment is too high, and property tax rates, as well as important dates as to when tax rates are determined, assessments are made, and taxpayers can appeal.

YOUR PROPERTY TAX ASSESSMENT

Property subject to taxation by local units of government is classified as either real or personal property. Real property consists of land and any improvements to the land, such as buildings and water and sewer facilities. In contrast, personal property includes tangible items such as furniture, machines, and equipment belonging to a business and those items not permanently attached to land or buildings. Customary household goods such as furnishings, clothing, and cars are some of the items that have been exempted from this tax.

Real property has been further divided into the following classifications: agricultural, commercial, developmental, industrial, residential, and timber cutover; while personal property has been classified as either agricultural, commercial, industrial, residential, or utility personal property.

In 1954, the Michigan Supreme Court ruled that the "assessed value" of property shall be the value placed upon the property by the local assessing officer, as equalized by the county and finally by the state. Equalization is needed to ensure that property owners in all parts of the county or school district pay their fair share of that unit's taxes. Equalization provides that all similar properties are equally and uniformly assessed and serves to ensure that a school district, city, township, or village in which property is underassessed does not get more than its fair share of state aid. The Michigan Constitution requires that property be assessed uniformly at a rate not to exceed 50% of true cash value. In 1965, the Michigan Legislature set the assessment rate at 50% of true cash value, as authorized by the Constitution.

Property assessment is an annual, three-step process. First, the local assessor determines the assessed value of property based on the condition of the property on December 31 of the previous year. Second, the board of commissioners in each county applies an adjustment factor to the assessments of each city and township in which assessments are above or below the required level. Third, the State Tax Commission applies an adjustment factor to the assessments of a county when its assessments, after the county adjustments, still fail to meet the required level.

Furthermore, the law also requires that the local assessor send to each owner or person or persons listed on the assessment roll of the property a notice, by first-class mail, of an increase in the tentative state equalized valuation (SEV) or the tentative taxable value for the year. The tentative taxable value is the value used to calculate property taxes under the requirements of Proposal A. This notice must be sent at least ten days before the meeting of the local board of review, and it must specify each parcel of property, the tentative taxable value for the current year, and the taxable value for the immediately preceding year. The notice must also include the SEV for the immediately preceding year, the tentative SEV for the current year, the net change between the tentative SEV for the current year and the SEV for the immediately preceding year, the classification of the property, the inflation rate for the immediately preceding year, and a statement explaining the relationship between SEV and taxable value. The notice must also include a reminder that, if the owner purchased the principal residence after May 1 of the prior year, the owner must file a homeowner's principal residence exemption claim on or before May 1.

The Michigan Constitution requires uniform assessments and because, prior to 1981, some taxing jurisdictions had not assessed property at 50% of true cash value, counties and the state had equalized the assessment roll by multiplying the assessed value by a factor designed to bring the total assessed value of all real or personal property on the roll to 50% of true cash value. In carrying out this annual equalization process, it became apparent that among the six different classes of real property and five different classes of personal property, which local units combined for assessment and equalization purposes, some were being assessed at or near the 50% rate, while others were being assessed at a considerably lower rate. This meant that when the local unit of government combined the different classes to determine what rate was needed to bring the total assessed valuation of all property up to the prescribed 50% rate, those classes that were already at or near it would be carrying a greater tax burden than those classes that were at a lower rate.

The process of equalization is now done separately for personal property and for each class of real property within each of the assessing units and the counties. Therefore, if, within an assessing unit, a particular classification of real property, such as residential, has been assessed at the proper percentage of true cash value, no equalization factor will be necessary. The 1981 equalization process was the first year in which the separate equalization by class was accomplished.

As a further step to encourage local assessors to assess property at 50% of its true cash value, 1981 PA 213 was enacted. This law has required a city or township, when its state equalized valuation exceeds its assessed valuation, to reduce its maximum authorized millage rate to produce the same amount of property tax dollars which would have been generated on the assessed valuation.

When looking at your property tax assessment, it is important to remember that property has been assessed on the basis of its usual selling price (true cash value). For tax purposes, property has traditionally been assessed at 50% of the true cash value and, on equalization, this resulted in the determination of the property's state equalized valuation (SEV). With the passage of Proposal A in March of 1994, however, the annual increase in a property's value for tax purposes, adjusted for all additions or losses, was capped at the rate of inflation or 5%, whichever is less. Taxable value is now the basis for the property tax assessment and, under 1998 PA 542, is the basis for the levy of special assessments that are levied on a millage rate basis. Therefore, a property will have both an SEV and a taxable value. Assuming that your property's true cash value rises faster than the rate of inflation or 5%, whichever is less, over time the property's taxable value may grow at a rate that is significantly lower than the rate of growth of its SEV.

Although increases in taxable value were limited under Proposal A, the taxable value of property cannot decrease absent the property's suffering of a loss due to destruction, environmental contamination, etc. (MCL § 211.34d) or deflation as reflected by the consumer price index. The taxable value must increase by the rate of inflation (or decrease by the rate of deflation) regardless of whether or not the SEV remains the same or decreases, unless the SEV actually decreases to an amount less than the preceding year's taxable value multiplied by the inflation rate. At this point, the taxable value will decrease to the SEV, but no further. The inflation rate used to calculate 2010 taxable values is -0.3%. Therefore taxable values will decline by at least -0.3% even if the SEV is higher unless ownership of the property was transferred in 2009 or the value increased because of new construction or other additions.

A TAXPAYER'S GUIDE

When a property is transferred, however, the following year's SEV becomes the property's taxable value. A transfer of ownership occurs when a title or present interest in the property is transferred by, but not limited to, conveyance by deed, land contract, trust, distribution under a will, and certain leases. Transfers of property from one spouse to the other spouse or from a decedent to a surviving spouse, among other exceptions, are not considered to be a transfer of ownership.

In addition, legislation enacted in 2000 eliminated the pop-up from taxable value to SEV when eligible farmland is transferred to new owners. Part of an agricultural preservation package recommended by the Senate Agricultural Preservation Task Force, 2000 PA 260 provided that when someone purchases eligible farmland they may file an affidavit testifying that the property would remain in agricultural use for at least seven years, and the transfer would not trigger the pop-up from taxable value to SEV for assessment purposes.

Applicable for all transfers of agricultural property since January 1, 2000, the pop-up elimination assures that the property will be assessed on taxable value as if the transfer did not occur. If the property has a change in use out of agricultural production, however, 2000 PA 261 provides that a portion of the benefits of the property tax pop-up elimination will be recaptured. The proceeds of the recapture are dedicated to the Agricultural Preservation Fund for local property development rights preservation programs under 2000 PA 262. A similar law was enacted in 2006 (2006 PA 446). It exempts from the pop-up transfers of land subject to a conservation easement.

THE BOARD OF REVIEW

If, for any reason, you disagree with the assessed value, taxable value, or assessment classification of your property, you may appeal that value to your local governmental board of review. Township boards of review are comprised of three, six, or nine voters of the township who are appointed by the township board. If the board consists of six or nine members, it will be split into committees of three. A township may also appoint up to two alternate members. An immediate family member of the assessor may not be a member of the board of review. Two-thirds of the board must be comprised of property taxpayers in the township. The size, composition, and appointment of city boards of review vary according to requirements of their respective charters. Cities may also establish boards of review in the same manner as townships.

Township review boards meet on the Tuesday following the first Monday in March to review the roll and, in the week containing the second Monday in March, to hear protests. As an alternative, the township may choose an alternate start date of either the Tuesday or Wednesday following the second Monday in March. The board must meet for a total of at least 12 hours in the second week of March. Review boards in townships must meet at least three hours after 6:00 p.m. Under 2008 PA 122, townships may adopt alternate start dates for the July or December boards of review. These meetings may take place during the week of the third Monday in July and during the week of the second Monday in December. The meeting times for city boards of review vary according to requirements of their respective charters. For places and times of their meetings, watch your newspaper or call your local city or township hall. Boards of review also meet in July and in December to correct qualified errors in the roll, including adjustments for property incorrectly listed as having had a transfer of ownership. These meeting dates are also used for disputes over claims for the homeowner's principal residence, poverty, and initial qualified agricultural property exemptions. If you are not satisfied with the judgment of the board of review, you may appeal its decision to the Michigan Tax Tribunal.

Remember, it is important that you appeal to the local board of review if you think your property is unfairly assessed relative to similar property. In addition, to make an appeal at the state level, you must have first appealed your assessment locally. This is because the county or state equalization process may require a "factor" which could increase your SEV above the 50% of true cash value level if your property is not properly assessed by the local assessor. If a taxpayer has his or her assessed value or taxable value reduced as a result of a protest, the assessor must use that reduced amount as the basis for determining the next year's assessment.

The governing body of a city or township may authorize, by adoption of an ordinance or resolution, nonresident taxpayers to file a protest before the board of review by letter without a personal appearance by taxpayers or their representatives. If such an ordinance or resolution is adopted, the township or city must notify taxpayers of this option in their assessment notices. In addition, the law requires a local review board to send a written notification of the board's action to every individual who makes a request, protest, or application for correction of property assessment.

If your homeowner's principal residence exemption claim is denied, you may appeal that denial to the Residential and Small Claims Division of the Michigan Tax Tribunal within 35 days of the notice of the denial. If the initial denial is for an exemption that was not on the tax roll, the first appeal is made with the Department of Treasury. If it is again denied, it would be appealed to the Tax Tribunal. The March board of review has no authority over claims for homeowner's principal residence exemptions. These claims may be granted by the July or December boards of review for the current year and the immediately preceding three years.

THE MICHIGAN TAX TRIBUNAL

Under the Tax Tribunal Act, an independent tax tribunal has the power to hear appeals of judgments of the local boards of review. The tribunal is a quasi-judicial body whose seven members are appointed by the Governor and confirmed by the Michigan Senate.

If you do not believe that you received a fair and equitable response from your local board of review, you may appeal your assessment to the Michigan Tax Tribunal. Generally, you must file your appeal of property classified as commercial real, industrial real, developmental real, commercial personal, industrial personal, or utility personal on or before May 31 of the tax year involved. Appeals of property classified as residential real, agricultural real, timber cutover real, or agricultural personal must be filed before July 31 of the tax year involved. To make an appeal of the valuation of property to the state level, you must have first appealed your assessment to the local board of review, unless you have an appeal pending.

If you have an appeal for a prior year pending before the Michigan Tax Tribunal for claims of property tax exemption or before the Tribunal's Residential Property and Small Claims Division, which has not yet been heard, the Tax Tribunal Act provides that a subsequent assessment dispute will be added automatically to the appeal pending before the Tribunal. You may request that any subsequent year be excluded at the time of the hearing.

An opportunity will be made available upon receipt of the Tribunal's notice of hearing for you to amend the appeal to include subsequent assessment disputes. The Michigan Tax Tribunal will include an instruction form with the notice of hearing advising taxpayers of their right to amend their petition. If you request an evening hearing, the hearing will be held after 6:00 p.m. In addition to hearing appeals from judgments of boards of review, the Residential Property and Small Claims Division also has exclusive jurisdiction over claims for agricultural and homeowner's principal residence exemptions. An appeal of a claim for a homeowner's principal residence exemption must be filed with the division within 35 days after the assessor, county treasurer, or county equalization director denies a claim for exemption. If the Department of Treasury denied a claim that was not on the tax roll, the appeal must be filed within 35 days of the decision. An appeal of a claim for a poverty exemption must be filed by June 30, if the claim was denied at the March board of review. A claim must be filed within 30 days if the July or December board of review (which are held to correct errors in the roll) denies a claim of exemption.

There is no fee for the filing of a homeowner's principal residence property tax appeal with the Residential Property and Small Claims Division of the Michigan Tax Tribunal. The fees for the filing of other property tax appeals are on a scale determined by the amount of SEV in contention. The minimum fee for filing other appeals of a property's taxable value with the Residential Property and Small Claims Division is \$25.00 unless the amount of SEV in contention is more than \$20,000 in which case the fee is based on the amount in contention.

A TAXPAYER'S GUIDE

An initial letter of appeal to the Michigan Tax Tribunal should be addressed to the Michigan Tax Tribunal, P.O. Box 30232, Lansing, MI 48909. The letter should state: (1) that you have protested the assessed value this year at your local board of review; (2) the number of assessments you are appealing; and (3) the location of the property by village, city, or township and county.

YOUR PROPERTY TAX RATES

The tax rate (millage) is the number of tax dollars the taxpayer must pay for each \$1,000 of taxable value. This rate varies by local unit, but certain statewide constitutional and statutory restrictions exist. The rate may not exceed 15 mills (\$15 per \$1,000) except in counties in which allocation among jurisdictions is permanently fixed by the voters at up to 18 mills. Excluded from these limitations are: (1) debt service taxes for all debts of all local units approved by the electorate; (2) extra-voted millage rates up to 50 mills, including allocated mills, for not more than 20 years; and (3) taxes imposed by those units having tax limitations provided by charter or general law (cities, villages, charter townships, charter counties, and charter authorities). As part of Proposal A, 1993 PA 314 provides that local school districts may no longer levy allocated mills and the 15-mill limit is reduced by the number of allocated school mills in 1993.

With the passage in 1978 by Michigan voters of Proposal E, the Headlee Tax Limitation Amendment, the Michigan Constitution was amended to require that if the SEV of existing property in a local unit of government increased by more than the consumer price index, the millage rate must be reduced to yield the same amount of revenue, adjusted for inflation, as could have been collected at the existing authorized rate. With the passage of Proposal A, this millage reduction is made using taxable value.

The Michigan Legislature placed in law a formula by which a local unit of government must reduce its maximum authorized millage when its state equalized value/taxable value increases by a percentage greater than the percentage of increase in the average annual consumer price index, not including that part of the increase that is caused by new construction and improvements.

However, because the rate of inflation since 1979 was often higher than the annual increases in the property value of many local units of government, millages had not been reduced nearly enough to satisfy some homeowners. To deal with this situation, and to ensure that local governing bodies have control over whether property taxes increase, 1982 PA 5 was enacted. This law, known as the "Truth in Taxation Act," has limited the amount of property tax a local unit can collect to what was collected the previous year, plus the taxes yielded from new additions to the property tax roll. This procedure is carried out by reducing the millage rate to the level which will yield that amount of property tax revenue. The limit can only be increased by a local governing body after it advertises its intent to collect higher taxes, conducts a special public hearing on the specific subject, and then votes to approve the additional millage rate. Taxing units that comply with the "Truth in Budgeting" requirements of the Uniform Budgeting and Accounting Act, however, are exempt from the "Truth in Taxation" notice and public hearing requirements when the hearing is intended to cover both the proposed budget and the proposed tax rate. Legislation enacted in 1999 prohibits the rounding up of millage rates to avoid fractions in computing taxes. Under 1999 PA 38, assessors must round down millage rates to four decimal places and round down tax amounts to the nearest one cent.

To determine what your property tax will be for the year, multiply your total local millage rate by your taxable value. A mill equals one one-thousandth of a dollar (\$1 of tax for each \$1,000 of taxable value). For example, if your local millage rate is 32 mills (\$32 per \$1,000 of taxable value) and your taxable value is \$100,000, the formula would be 32×100 , for a property tax of \$3,200. In addition, the Michigan Department of Treasury has a property tax estimator on its website (<http://www.michigan.gov/treasury>).

To evaluate the real cost of property taxes to you, it is necessary to relate your property tax bill to the program of tax credits and deductions discussed beginning with page 18 of this booklet. In 2009, for example, 1.6 million eligible Michigan homeowners and renters received credits averaging about \$581 from the state through the homestead property tax credit program, for a total of nearly \$931 million. Please be aware that, with the reduction in property taxes, total property tax credits for 1994 and 1995 dropped by nearly 40%. The state average millage rate declined from 56.64 mills in 1993 to 31.00 mills on homesteads and 48.79 mills on nonhomestead property in 1995.

In 2008, the state had an average millage rate of 38.94 mills, which generated \$14.14 billion in general property tax revenue collected by local units of government. The \$14.14 billion was divided among local units of government as follows:

Local Unit of Government	2008 Percent of Total Mills Levied	2008 Estimated Dollars Levied (in Millions)
County	16.48%	\$2,331.4
Township	6.59	931.8
City	17.81	2,519.6
Village	0.73	103.9
School	43.48	6,150.1
State Education Tax	14.89	2,106.6

This is a good indication of what percentage of your property tax dollars have gone to finance specific operations of local government.

SPECIAL ASSESSMENT DEFERRAL

Many senior citizens have been concerned that rising property taxes could force them from their homes. The homestead property tax reforms approved by Proposal A in 1994 and the homestead property tax credit program will help alleviate this problem for many, but those measures do not address the matter of special assessments, which include assessments for the installation of curbs, gutters, sidewalks, pavements, and drains; tap-in water and sewer fees; roads; and police and fire services, among others. Public Act 225 of 1976, as amended, has provided specific relief in this regard.

Under the provisions of this law, as amended, a homeowner who is 65 years of age or older or who is totally and permanently disabled, and who is a citizen of the United States, a resident of this state for five or more years, the sole owner of the homestead for five or more years, and whose annual household income was not more than \$21,147 in 2009, is eligible to defer special assessments on that homestead. The total amount of the special assessment to be deferred, exclusive of interest, cannot be less than \$300. Since January 1, 1984, the limit on household income for special assessment deferments has been adjusted annually according to the annual average percentage increase or decrease in the Detroit Consumer Price Index.

Special assessments will be deferred until one year after the owner's death or until the homestead is sold, conveyed, or transferred to someone else. Death of a spouse, however, will not terminate the deferment for the surviving spouse, unless the surviving spouse remarries.

Other significant provisions of 1976 PA 225 are:

1. That a homeowner who meets the eligibility requirements for deferment of a special assessment, and who borrowed from a lending institution to pay a special assessment before January 8, 1981, is eligible to receive money from a special revolving fund. This fund was established within the Michigan Department of Treasury to allow these individuals to repay the lending institution the principal amount used to pay the special assessment;
2. That the owner or owner's estate pay an interest penalty of 1% per month if the property on which a special assessment deferment has been granted is sold and the deferment has not been terminated. The interest penalty is charged from the date of sale of the property; and
3. For those who qualify for a special assessment deferment, the payment of the deferred special assessment by the owner or the owner's estate will include an interest charge of 1% per month or fraction of a month.

SUMMER PROPERTY TAX DEFERMENT

Many homeowners are required to pay summer property taxes which become due well before state homestead tax refund checks are issued. However, section 51 of the General Property Tax Act requires any local unit of government collecting a summer property tax to defer collection of the tax until the following February 16 (February 15 is a Holiday), for the following categories of people:

1. Homestead property of a taxpayer who is totally and permanently disabled, blind, paraplegic, quadriplegic, hemiplegic, a senior citizen (age 62 or over, including the unremarried surviving spouse of a person who was 62 years of age or older at the time of death), eligible serviceperson, eligible veteran, or an eligible widow or widower, and whose total household income in the prior taxable year did not exceed \$40,000.
2. Property classified or used as agricultural real property, if the gross receipts of the agricultural or horticultural operations in the previous year or the average gross receipts of such operations in the previous three years are not less than the owner's household income in the previous year.

To claim a deferment, a taxpayer must file an intent to defer with the treasurer of the property tax collecting unit on a form the treasurer's office will make available. Persons eligible for the deferment must file by September 15 of the tax year or by the time the tax would become subject to interest or late penalty charges. If different treasurers collect school and municipal summer taxes, an intent to defer must be filed with each to defer the collection of each. Summer property taxes deferred under this procedure, which are not paid by the following February 16, shall not be subject to penalties or interest for the period of the deferment. This allows you to apply for and receive your homestead property tax rebate before the taxes are due.

Section 44 of the General Property Tax Act authorizes local property tax collecting units to collect up to a 1% property tax administration fee and, on taxes paid after February 16, a 3% late penalty charge. In order to impose a property tax administration fee, collection fee, or any type of late penalty charge, the governing body of the local property tax collecting unit must adopt a one-time ordinance or resolution authorizing their imposition. However, the 3% late penalty charge may be waived by the local governing body of a city or township for the homestead property of a senior citizen, paraplegic, quadriplegic, hemiplegic, eligible serviceperson, eligible veteran, eligible widow or widower, totally and permanently disabled person, or blind person if that individual can demonstrate to the local treasurer that a claim has been filed for a property tax credit and not received by February 16. In addition, the governing body of a local property tax collecting unit may waive all or part of the property tax administration fee or the late penalty charge, or both.

If you think you qualify for the summer deferment or waiver, contact your local treasurer for an application.

WINTER TAX DEFERRAL AND WAIVER

A taxpayer who is a senior citizen, paraplegic, quadriplegic, hemiplegic, eligible serviceperson, eligible veteran, eligible widow or widower, or who is totally and permanently disabled or blind may be able to delay paying the winter taxes on his or her homestead until April 30 of the first year of delinquency. Section 59 of the General Property Tax Act allows county boards of commissioners to waive for those taxpayers any interest, fee, or penalty in excess of the interest, fee, or penalty that would have been added if the tax had been paid by February 16 if they:

1. Have applied for a property tax credit before February 16 (February 15 is a Holiday);
2. Have not received their refund before March 1; and
3. Present a copy of the property tax credit form to their county treasurer.

However, this deferral is permitted only if a county board of commissioners adopts a resolution approving the deferral.

The law also requires the county treasurer to waive the county's property tax administration fee and to either waive or refund interest charges on delinquent taxes for taxpayers who meet the above qualifications. Contact your county treasurer to determine if your county has made the deferment available and to determine if you qualify.

POVERTY EXEMPTION

Section 7u of the General Property Tax Act, being MCL § 211.7u, as amended by 1994 PA 390, provides that eligible homeowners may apply for an exemption from paying property taxes. To be eligible for an exemption, a homeowner must apply to the local assessing unit after January 1 but before the day prior to the last day of the board of review.

A person may be eligible to request an exemption if they, at a minimum, owned and occupied the property as their homestead, demonstrated evidence of ownership and identification, and meet poverty income standards. The board of review of the assessing unit would determine if the applicant meets the minimum requirements for exemption and if the application should be granted or denied based on the guidelines for both income and asset levels adopted by the local unit of government. These standards are to be made available to the public. Appeals of poverty exemption denials may be brought before the July or December board of review.

2010 PROPERTY TAX AND COLLECTIONS CALENDAR

This 2010 Property Tax and Collections Calendar has been prepared in accordance with all legislation and directives of the Attorney General applicable to 2010 property taxes. The interpretation of these statutes and directives does not constitute a legal opinion but is rather a statement of the facts, as the State Tax Commission believes them to be.

It should be noted that the statutory requirement for assessments, before and after county and state equalization, is still 50% of True Cash Value, and that the Constitution still requires that assessments NOT exceed 50% of True Cash Value, before and after county and state equalization.

Section references are as assigned in the Michigan Compiled Laws (MCL).

FARMLAND AND OPEN SPACE TAX RELIEF

In 1974, the Michigan Legislature passed and the Governor signed into law 1974 PA 116—the Farmland and Open Space Preservation Act—to alleviate the rapid and often premature conversion of land, uniquely suited for agriculture and open space, to more intensive uses. This law, which is now Part 361 of the Natural Resources and Environmental Protection Act, enables a landowner to voluntarily enter into a developmental rights agreement or a developmental rights easement with the state.

These agreements or easements, which are legally recorded documents, ensure that enrolled lands (active farmland or certain open space lands are eligible) remain in a particular use for an agreed-upon period of time. Initial development rights agreements or easements are subject to a term of not less than ten years; however, those entered into after June 5, 1996, may have a term of up to 90 years. In return for maintaining the land in a particular use, the landowner is entitled to certain tax benefits. Legislation enacted in 1995 (1995 PA 59 as subsequently amended), however, permits, upon payment of a portion of the credit, the withdrawal of all or a portion of the property subject to a development rights agreement under certain circumstances.

The tax benefits afforded to landowners participating under this program were tempered somewhat in recent years by the tax benefits associated with 1994 Proposal A. In 2001, however, these benefits were significantly increased. Under 2000 PA 421, benefits fall into the following three categories:

1. Lands that qualify and are approved under the farmland or open space provisions of the law are exempt from special assessments for sanitary sewers, water, lights, or nonfarm drainage, except for years before 1995 as to a dwelling or nonfarm structure located on the land, unless the assessments were imposed before enrollment in the program;
2. Under a farmland development rights agreement, the landowner is entitled to claim as a credit against state income tax liability the amount by which the farmland property taxes on land and structures restricted by such agreements exceed 3.5% of household income. This credit is in addition to a homestead property tax credit which the landowner may claim on the state income tax return; and
3. For those lands under an open space easement, development rights held by the state or local governing body are exempt from ad valorem taxes.

To be eligible, the agricultural land must be actively farmed and must generally meet one of the following qualifications: be 40 or more acres in size; five to 40 acres in size with a minimum per-acre gross income of \$200 per year; or a Department of Agriculture-designated “specialty farm” with a minimum gross annual income of \$2,000. At least 51% of the land must be primarily devoted to an agricultural use, except for specialty farms.

Open space land is divided into two categories, but in both cases the land must be undeveloped. The first category involves historic, riverfront, or shoreland areas and requires that, to be eligible, the land must meet one of the following criteria: be registered as an historic site by appropriate state or federal action; be lands adjacent to a state-designated natural river under Part 305 of the Natural Resources and Environmental Protection Act; or be designated as an environmental area under Part 323 of the Natural Resources and Environmental Protection Act. The second category of open space land is more general and is meant to provide a tool for local units of government to protect local open space lands.

Requirements for eligibility include that the land conserve natural or scenic resources, enhance recreational opportunities, preserve historic sites, or preserve idle potential farmland of not less than 40 acres in size. The idle potential farmland class is the only one under the open space categories which has an acreage requirement.

Landowners eligible to apply for a farmland preservation tax credit and who are required to file a Michigan income tax return must complete and attach Michigan Department of Treasury Form MI-1040CR-5 to their state income tax returns. Individuals applying for this credit must include with their application a copy of a receipt showing payment of property taxes for the year for which the credit is being claimed or the prior year. If a copy of the receipt is not included, the Michigan Department of Treasury will issue the check made out to the claimant and the county treasurer in the county in which the claimant's property is located. The money will first be used for payment of the taxpayer's property taxes, interest, penalties, and tax administration fees. Any money remaining will be returned to the claimant.

A law passed in 1988 (1988 PA 423) provides that, beginning with the 1984 tax year, certain taxpayers who were partners in partnerships, shareholders in S corporations, holders of property under a life lease, or owners of a trust can claim the Farmland Preservation Credit. Moreover, pursuant to 1996 PA 233, members of limited liability companies also became eligible for the credit. Now, landowners who are not eligible for the income tax credit may be eligible for a credit against the Michigan Business Tax. The credit cannot exceed 3.5% of the adjusted business income, subject to certain adjustments.

Like the homestead property tax credit, this tax credit is based on household income. The property taxes you may claim for your 2009 credit are those taxes billed for 2009. Approximately \$36 million was paid in 2009 to about 8,000 eligible taxpayers. Those who are eligible for this tax credit should receive copies of the MI-1040CR-5 form in the mail from the Michigan Department of Treasury. Taxpayers filing the MI-1040CR-5 form may now be eligible to e-file, if the percentage of ownership is not split.

MICHIGAN INCOME TAX

The Michigan individual income tax was first adopted in 1967. It is a direct flat-rate tax on the federal adjusted gross income of individuals, estates, and trusts. Interest income from obligations or securities of states and their political subdivisions other than Michigan is also subject to the state income tax. Adjustments are made with respect to estate or trust income. The Michigan income tax rate is 4.35% for the 2009 tax year.

Legislation enacted in 2004 (2004 PA 199) allows U.S. military personnel, serving in a combat zone on April 15, 2009, up to 180 days after leaving the combat zone to file their tax returns. This extension mirrors the one provided by the federal income tax.

ELECTRONIC FILING AND DIRECT DEPOSIT OF REFUND

Electronic (or E-) filing allows you to file your income tax returns by computer instead of mailing paper returns. Safe and convenient, E-filing generally allows you to receive your refund much quicker than paper filing. You may E-file using commercially available software or online services. You may also use a commercial tax preparer. Some taxpayers are eligible for free E-filing services.

You may E-file both your state and federal forms, or you may wish to E-file your Michigan return separately. You may even file your homestead property tax credit and/or your home heating credit claims separately. Amended returns, fiscal year returns, and returns for prior years may not be E-filed. In addition, taxpayers claiming the stillbirth tax credit cannot E-file.

Most taxpayers have the option of having their income tax refund deposited directly into their bank accounts. To have your refund deposited directly into the U.S. financial institution of your choice, complete the direct deposit portion of your MI-1040, MI-1040CR, MI-1040CR-2, or MI-1040CR-9. You may also attach a Direct Deposit of Refund Form 3174 to your MI-1040 tax form. Do not request direct deposit if you are filing a home heating credit claim from which an energy draft will be issued.

Some taxpayers may not be eligible for direct deposit. If for some reason the Department of Treasury cannot deposit your refund directly, they will send you a check. When requesting direct deposit, be sure that your financial institution will accept direct deposit, that the name(s) on the return match the name(s) on the bank account, and that your account number and routing transit number are correct.

STATE INCOME TAX DEDUCTIONS

Taxpayers are allowed to subtract from adjusted gross income a number of deductions. These include \$3,600 for each personal and dependency exemption. A taxpayer who is age 65 or older is allowed an additional exemption of \$2,300. A \$2,300 special exemption is also available for a taxpayer who is deaf, paraplegic, quadriplegic, hemiplegic, totally and permanently disabled, or blind. A taxpayer may claim the special exemptions for dependents who qualify for the exemption. A taxpayer whose state income tax return includes unemployment compensation that amounts to 50% or more of adjusted gross income is also allowed an additional \$2,300 exemption. If you claim the 65 or older exemption, you may NOT claim an exemption as totally and permanently disabled. Although a portion of Social Security benefits of individuals at certain income levels are taxable by the federal government, Michigan taxpayers can deduct from adjusted gross income the amount of any Social Security benefits received for the year which are included in federal adjusted gross income.

Any persons eligible to be claimed as a dependent on someone else's tax return, and whose adjusted gross income is more than \$1,500, may claim a \$1,500 personal exemption on their own return. This applies whether or not the other person claims the dependent exemption. If a dependent's income is \$1,500

or less, that person need not file a return unless claiming a refund of withholding. The Child Care Act of 1997 created a child deduction. The child deduction was revised for the 2000 tax year and beyond. Taxpayers with dependents 18 years of age or younger on December 31, 2008, may deduct \$600 per child.

Interest income from federal government obligations and all pension benefits received from a Michigan or U.S. government public retirement system may also be subtracted from adjusted gross income. Pension or retirement benefits from a private pension are deductible to a maximum of \$45,120 (\$90,240 on a joint return). These figures are adjusted annually by the U.S. Consumer Price Index. The amount of this deduction is reduced by the amount of any public or military pension benefits deducted.

The deduction for the dividend, interest, and capital gain income of senior citizens has increased. For the 2009 tax year, this deduction has been increased to \$10,058 (\$20,115 on a joint return). The maximum amount of this deduction is reduced by the amount of a deduction taken for retirement or pension benefits. This deduction is adjusted annually by the U.S. Consumer Price Index.

In addition, deductions may be taken for Armed Forces compensation, income from an out-of-state business or rental income from out-of-state property, any refund of state or city income tax that is included as income on federal Income Tax Form 1040, and political contributions up to a maximum of \$50 per year for an individual or \$100 per year on a joint return.

Income from an out-of-state business, including distributive share income from flow through entities such as partnerships, limited liability companies taxed as partnerships or subchapter S corporations, is deducted. Losses from out-of-state business is added back to arrive at Michigan income. Rental income from out-of-state property is deducted but rental losses from out-of-state property is added back to Michigan income.

Michigan taxpayers who bought a Michigan Education Trust contract are entitled to deduct the full amount of the contract from their income in the year of purchase. If a loan was taken out to purchase the contract, a deduction can still be made for the full amount paid for the contract, but not for any interest paid on the loan. A taxpayer may also claim a deduction for contributions made to an education savings account established under the Michigan Education Savings Program (MESP). The deduction for annual contributions is limited to \$5,000 (\$10,000 on a joint return).

Qualified taxpayers who are residents in a renaissance zone may also deduct income earned or received while residents of a Michigan renaissance zone. If you are a resident in a renaissance zone for at least 183 consecutive days and meet other qualifications, you may be exempt from paying state and city income tax, and property taxes (except debt and sinking fund mills). Certain renaissance zones, however, are beginning to be phased out. Taxpayers in these zones will have their exemption phased out in 25% increments during each of the zone's final three years.

A deduction is also available for money and interest resulting from a settlement of claims for Holocaust victims. The deduction is retroactive to the 1994 tax year.

Public Act 400 of 2000 created an income tax deduction for charitable contributions made from distributions from pensions or IRAs. The act sets the deduction at the amount deductible on the taxpayer's federal return, minus both the amount of the state deduction for retirement or pension benefits and two times the amount of the state public contribution, homeless shelter/food bank, and community foundation credits claimed by the taxpayer. To qualify, payment to the charity must occur within 60 days of receiving the distribution.

Under the provisions of 2005 PA 214, a taxpayer may also deduct gains realized from a qualified initial equity investment of at least \$100,000 in a business engaged in competitive-edge technologies.

Public Act 94 of 2007 created a new deduction for qualified disabled veterans. Under this deduction, a qualified disabled veteran and each of his or her dependents may claim an additional \$300 exemption.

STATE INCOME TAX CREDITS

In addition to the homestead property tax credit program (discussed on page 24) and the farmland and open space preservation tax credit (discussed on page 16), Michigan taxpayers are allowed many different types of credits against their personal income tax liability, chief of which is the home heating credit. A specific section that follows (see page 31) will be devoted to the home heating credit.

Other types of credits against personal income tax liability include allowances for income taxes paid to other states (except reciprocal states), political subdivisions of other states, the District of Columbia, Canadian provinces, or Michigan cities.

The Canadian provincial credit is allowed only for that portion of the provincial tax not claimed on the individual's United States income tax return. In determining this credit, you may not use any Canadian provincial tax carried forward from previous years.

If you pay a city income tax in Michigan, you may claim a portion of the tax as a credit against your state income tax liability. The city income tax credit is computed as follows:

City Income Tax Credit Computation	
Tax Paid	Credit
\$100 or less	20% of the city income taxes paid
\$101 - \$150	\$20 plus 10% of the excess over \$100
\$151 or more	\$25 plus 5% of the excess over \$150
The total credit cannot be more than \$10,000.	

Michigan taxpayers are permitted a public contribution credit for gifts of money or artwork created by the taxpayer if given to Michigan colleges and universities and their fund-raising organizations, the Michigan Colleges Foundation, the State Art in Public Places Fund, the State of Michigan Museum, public libraries, or public broadcasting stations. A taxpayer may also claim a credit for gifts of money or any artwork to a Michigan municipality or a nonprofit corporation affiliated with a Michigan municipality and an art institute in that municipality to benefit an art institute. Artwork created by the taxpayer qualifies for credit if given to the state of Michigan or a Michigan municipality for public display. Finally, gifts of money or artwork created by the taxpayer qualify for credit if given to the state of Michigan for the preservation of state archives. The amount of the credit permitted for a public contribution is 50% of the contribution up to \$100 (\$200 on a joint return).

Michigan taxpayers are eligible for a nonrefundable historic preservation tax credit. The credit is available for owners or long-term lessees of qualified historic resources and is equal to up to 25% of certain expenses incurred in the rehabilitation of the qualified historic resource. To be eligible, the rehabilitation project must be certified by the State Historic Preservation Office.

The community foundations tax credit covers contributions made during the tax year to endowment funds of certified community foundations. The nonrefundable credit is limited to 50% of the total charitable contributions up to \$100 (\$200 on a joint return). A list of certified community foundations is included in the state income tax instruction booklet and in the forms at the back of this booklet. You must enter the proper code to receive your credit.

An additional credit is available for cash contributions to shelters for homeless persons, food kitchens, food banks, or other entities whose primary purpose is to provide overnight accommodation, food, or meals to persons who are indigent. This nonrefundable homeless credit is 50% of the contribution by the taxpayer not to exceed \$100 for a taxpayer filing singly or \$200 for a husband and wife filing a joint return.

To be eligible, the contribution must be either in cash (U.S. currency, personal check, money order, or credit card) or be a food donation made in conjunction with a matching food donation program. The

contribution must be made to an organization located in Michigan whose primary purpose is the delivery of food, meals, or shelter to indigent persons; and the contribution must be tax deductible for the donor under the federal Internal Revenue Code.

Public Act 313 of 2004 created a new, nonrefundable credit for vehicle donations. The credit is equal to 50% of the fair market value of an automobile donated to a charitable organization that intends to give the automobile to a qualified individual for employment-related transportation. The credit may not exceed \$50 (\$100 for a husband and wife filing a joint return). Donors must receive a Donor Tax Credit Certificate for Donated Vehicle Form (Form 4284) from a certified charitable organization to be able to claim the credit. The following charitable organizations have been certified as charities for which the credit is available:

2009 MICHIGAN VEHICLE DONATION CODE LIST

105 Goodwill Industries of Mid-Michigan, Inc.	705 Goodwill Industries of Northern Michigan, Inc.
202 Goodwill Wheels to Work	803 Goodwill Industries of West Michigan, Inc.
601 Goodwill of Southwestern Michigan, Inc.	905 Goodwill Industries of Southeast Michigan, Inc.
604 Carlink, Inc.	

The public contribution credit, community foundation credit, vehicle donation credit, and the homeless credit are computed separately. A taxpayer filing singly who donates a qualified vehicle valued in excess of \$200, and contributes \$200 to a public broadcast system, \$200 to a certified community foundation, and \$200 to an eligible shelter, for example, may claim a \$50 vehicle donation credit, a \$100 public contributions credit, a \$100 community foundation credit, and a \$100 homeless credit on his or her income tax return.

Public Act 7 of 1995 created a nonrefundable credit for tuition and uniformly required fees paid to a "qualified" state institution of higher learning. To be eligible, the claimant must have an adjusted gross income of \$200,000 or less and be a resident of the state. The amount of the credit is limited to 8% of undergraduate tuition and fees paid up to \$375 per student per year. The credit is limited to four tax years for each student. To be qualified, an institution of higher learning must, among other factors, pledge to keep the increase in its tuition rates to not more than the annual percentage increase in the U.S. Consumer Price Index. The credit is not available to students attending an institution providing programs solely for sectarian instruction or religious worship. The following colleges and universities have been certified as institutions for which the 2009 credit is available:

A TAXPAYER'S GUIDE

In addition to the section on the homestead property tax credit program, the individual section on home heating credits which follows (see page 31) has been singled out for particular attention because of its importance to state taxpayers. The largest of these credits, however, is the homestead property tax credit, a system of refunds and credits for local property taxes under which approximately \$931 million was returned in 2009 to Michigan citizens whose property taxes or rent took up a large proportion of their household income. The home heating credit was added in 1978, paying out approximately \$103 million to low-income families and to senior citizens in 2009.

The home heating credit program is designed to provide assistance to people in relation to their ability to meet their own property taxes and home heating costs. The measurement of that ability is called "household income."

Household income, which is discussed on page 28 of this booklet, includes almost all income available to the household for the year. In addition to earned income, it includes such things as Social Security and pension benefits, unemployment compensation, and cash public assistance. A further description of individual credit programs will follow.

In 2000, Public Act 394 created a new income tax credit for eligible adoption expenses. Taxpayers may now claim a credit for qualified adoption expenses in excess of the federal credit or \$1,200, whichever is less.

Under 2006 PA 319, taxpayers receiving a Certificate of Stillbirth from the Department of Community Health may take a refundable income tax credit. For the 2008 tax year, the credit is set at \$160.00.

Finally, beginning with the 2008 tax year, taxpayers may be eligible for an earned income tax credit. For 2009, the credit is equal to 20% of the amount of the federal credit.

In addition, 2008 PA 287 created a new, refundable credit for qualified energy-efficient home improvements, beginning with the 2009 tax year. The credit is equal to 10 percent of the amount of the home improvement, up to \$75 (\$150 on a joint return). The act also created a nonrefundable credit for a portion of certain energy cost recovery charges passed on to the consumer under the Clean Renewable, and Efficient Energy Act, beginning with the 2009 tax year.

Beginning with 2009, taxpayers may claim the Individual or Family Development Account nonrefundable credit equal to 75% of certified contributions made to a reserve fund of a fiduciary organization for the Development Account Program.

MILITARY FAMILY RELIEF FUND

The Military Family Relief Fund check-off program was created by 2004 PA 363. Taxpayers may donate \$1 or more to the fund, which provides up to \$2,000 in assistance to needy families of Michigan military personnel serving in active duty. A portion of the fund is also dedicated to the Michigan Soldiers' Home.

CHILDREN OF VETERANS TUITION GRANT FUND

The Children of Veterans Tuition Grant Program and income tax check-off were created by 2005 PAs 248 and 249. The check-off allows Michigan taxpayers to voluntarily contribute \$2.00 or more to the fund. Proceeds of the fund assist with undergraduate tuition expenses for eligible children of Michigan veterans who died or suffered total and permanent disability in the line of duty.

CHILDREN'S TRUST FUND

Under 2005 PA 160, an individual may designate a donation of \$5.00 or more to the Children's Trust Fund by check-off. The money is used for efforts to prevent child abuse and neglect.

A taxpayer may also purchase a Children's Trust Fund specialty license plate or make a contribution of any amount to this fund. Make a donation by credit card or check to: Children's Trust Fund, P.O. Box 30037, Lansing, MI 48909.

NEW VOLUNTARY CONTRIBUTIONS SCHEDULE

Beginning with the 2008 tax year, a new income tax schedule program, initiated by 2007 PA 133, will allow contributions to a number of charities through the check-off. Contributions will reduce your tax refund or increase your tax due. Over time, all of the check-offs included in the income tax forms, such as the Children's Trust Fund, will be found on the Form 4642 Voluntary Contributions Schedule. Any fund not raising more than \$100,000 for two consecutive years may be dropped from the schedule.

The separate check-off schedule for the 2009 tax year includes the following charitable entities:

Amanda's Fund for Breast Cancer Prevention and Treatment. This fund was created by 2007 PA 134. A contribution will help support the Michigan Breast and Cervical Cancer Control Program's efforts in breast cancer screening, follow-up care, and treatment for low-income women.

Animal Welfare Fund. The Animal Welfare Fund was established under 2007 PA 132. The fund supports efforts relating to the spaying and neutering of animals, and helps finance the costs for protecting and caring for animals that have been subjected to cruelty or neglect.

Children's Hospital of Michigan Fund. The Children's Hospital of Michigan Fund was created to provide funds for donation to the Children's Hospital of Michigan to support the hospital in providing life-saving pediatric care, education, and research.

Children's Miracle Network Fund. The Children's Miracle Network Fund was created to provide funds for donation to the Children's Miracle Network to support the Children's Miracle Network hospitals located in this State in providing life-saving pediatric care, education, and research.

Foster Care Trust Fund. Contributions to the Foster Care Trust Fund will be used to identify and address issues facing foster children in Michigan and to work with existing foster care programs to build further service capacity in the State.

Michigan Council for the Arts Fund – Local Grant Programs. Help keep your community thriving with quality arts and culture. You may contribute \$5 or more to the Michigan Council for Arts and Cultural Affairs in support of local arts and cultural events. These contributions are returned to local communities and nonprofit organizations in the form of grants. Programs and services funded by these monies include arts education and low-cost performances and exhibits.

Michigan Housing and Community Development Fund. This fund was created within the Michigan State Housing Development Authority by 2008 PA 216. The fund supports rehabilitation, construction, and land acquisition efforts to enhance low-income, very low-income, and extremely low-income housing projects in downtown areas or adjacent neighborhoods.

Michigan Law Enforcement Officers Memorial Monument Fund. This fund was created by 2008 PA 162 to help support the completion of a memorial to the more than 500 law enforcement officers that have died in the line of duty in Michigan.

Prostate Cancer Research Fund. The Prostate Cancer Research Fund, established by 2007 PA 135, helps fund prostate cancer research in Michigan. The funds may also be used to match federal grants and grants from the National Cancer Institute.

Renewable Fuels Fund. Contributions to the Renewable Fuels Fund will be used to promote the production and use of renewable fuels in Michigan, including, but not limited to, biodiesel, biodiesel blends, hydrogen fuel, and E85 fuel.

United Way Fund. Contributions to the United Way Fund (of America) will be used to improve the lives of Michigan residents by mobilizing the caring power of communities to provide for basic needs, including, but not limited to, food, clothing, and shelter.

HOMESTEAD PROPERTY TAX RELIEF

In 1973, the Michigan Legislature enacted the Homestead Property Tax Credit Act. The initial provisions of 1973 PA 20 were subsequently amended and expanded to provide a means for Michigan taxpayers to link property tax to household income in an effort to make the overall tax system more equitable.

Also known as the “circuit breaker,” this program has provided nearly \$21.2 billion in relief from property taxes to Michigan homeowners and renters since it was implemented 35 years ago. In 2009, for example, 1.6 million eligible Michigan homeowners and renters received credits averaging approximately \$581 from this program, for a total of about \$951 million in property tax relief.

The homestead property tax credit is a device through which taxpayers can receive a tax credit for an amount of their property tax which exceeds a certain percentage of their household income for that year. This program establishes the following categories under which homeowners or renters are eligible for a homestead property tax credit:

1. Citizens age 65 and older and the surviving spouses of senior citizens. A claimant or spouse must be age 65 by December 31 of the tax year for which they are filing.
2. Paraplegic, hemiplegic, and quadriplegic persons.
3. Deaf and totally and permanently disabled persons who are not over age 65.
4. Eligible veterans, active military personnel, blind persons, and the surviving spouses of veterans.
5. All other homeowners and renters.

Under this program, a credit/refund for property taxes paid is determined by placing homeowners and renters into one of the categories listed above and then relating their property taxes, or percent of rent paid, to their household income. Individuals must have resided in Michigan for at least six months of the immediately preceding year in which they are applying for a credit.

GENERAL PROVISIONS

Homeowners and renters who do not qualify for consideration under one of the special categories are granted a credit against their state income tax equal to 60% of the amount by which their property taxes exceed 3.5% of their household income. In lieu of property taxes paid by the homeowner, renters will base their claim on 20% of their yearly rent. If there is no income tax due or if the property tax credit exceeds the income tax, a refund will be made. The credit cannot exceed \$1,200.

Since the 1982 tax year, there has been a phaseout of the property tax credit for taxpayers whose household income exceeded a certain amount. Your credit is reduced by 10% for each \$1,000 or part of \$1,000 by which household income is greater than \$73,650. If your household income is \$82,650 or more, you are not entitled to a property tax credit.

Persons whose household income consisted totally of Family Independence Program (FIP) assistance or Department of Human Services (DHS) benefits are not eligible for a property tax credit. For persons who received a part of their income from these programs, their credit will be reduced by the percentage which their total household income was composed of FIP or DHS benefits. This reduction shall not exceed the total of FIP or DHS payments received during that year.

In calculating this credit, individuals must exclude from their total FIP benefits for the year the amount of any child support payments paid to the Friend of the Court which offset or reduced their FIP benefits. For example, if 60% of your total household income was from FIP benefits less any applicable child support payments and 40% was from wages and child support, your actual credit would be 40% of the property tax credit calculated before proration.

The following is an example of how a regular credit would be figured: Mr. and Mrs. Smith's household income was \$15,000. Their property tax was \$700. The credit is computed by multiplying the household income (\$15,000) by a fixed 3.5%. If the property tax is more than 3.5% of the household income, the excess is multiplied by 60% to determine the credit, as follows:

$$\$15,000 \times 3.5\% = \$525; \$700 - \$525 = \$175 \times 60\% = \text{credit of } \$105$$

Other examples include:

2009 Household Income	2009 Property Tax	3.5% of 2009 Household Income	Excess: Property Tax Minus 3.5% of Income	Amount of Credit or Refund (60% of Excess)
\$7,500.00	\$500.00	\$262.50	\$237.50	\$142.50
\$10,000.00	\$1,000.00	\$350.00	\$650.00	\$390.00
\$20,000.00	\$1,500.00	\$700.00	\$800.00	\$480.00
\$25,000.00	\$850.00	\$875.00	*	\$0.00*

* In this example, because the taxpayer's property tax payment for the year was less than 3.5% of household income, the taxpayer is not eligible for a credit.

SENIOR CITIZENS AND DEAF, DISABLED, PARAPLEGIC, HEMIPLEGIC, OR QUADRIPLÉGIC PERSONS

A senior citizen is defined as a person 65 years old or older and, for 2009, a husband and wife are eligible if either has reached the age of 65 on or before December 31, 2009. The definition also includes the unremarried surviving spouse of a person who died after reaching the age of 65. Totally and permanently disabled persons are defined as such by the United States Social Security Administration.

The property tax relief available to low-income persons in this category is much greater than the allowance granted to other taxpayers. If the household income is \$3,000 or less, then 100% of the property tax is refundable.

Senior citizens and deaf, disabled, paraplegic, hemiplegic, or quadriplegic persons with household incomes of more than \$3,000 receive a credit or a refund for all of their property taxes above the percentage of their household income as shown in the following chart.

2009 Household Income	Percentage of Household Income Not Refundable
Not over \$3,000	0.0%
\$3,001 - \$4,000	1.0%
\$4,001 - \$5,000	2.0%
\$5,001 - \$6,000	3.0%
\$6,001 and over	3.5%

A TAXPAYER'S GUIDE

For example: Mr. and Mrs. Jones are senior citizens whose household income was \$5,400. They were billed \$500 for property taxes. The credit is computed by first multiplying their household income (\$5,400) by the percentage not refundable (3%) and then taking the difference between 3% of income and the amount of taxes paid.

$$\$5,400 \times 3\% = \$162; \$500 - \$162 = \text{credit of } \$338$$

Other examples for senior citizens are:

2009 Household Income	2009 Property Taxes Paid	Percentage of Household Income Not Refundable	Amount of Tax Which Must Be Paid	Amount of Credit or Refund
\$3,500.00	\$500.00	1.0%	\$35.00	\$465.00
\$4,500.00	\$650.00	2.0%	\$90.00	\$560.00
\$6,500.00	\$800.00	3.5%	\$227.50	\$572.50

A senior citizen who rents should substitute 20% of yearly rent for property taxes paid during the 2009 tax year in the above computation. However, senior citizens whose rent is more than 40% of their household income may get a bigger credit using an alternative credit computed by subtracting 40% of their household income from their rent. Disabled persons are not eligible for the alternative computation.

Senior citizens who rent should calculate their credit using both the standard and alternative formulas, and claim the larger credit. However, the maximum property tax credit for all taxpayers cannot exceed \$1,200.

BLIND PERSONS

All blind persons who are homeowners are eligible for property tax credit benefits. If the taxable value of the claimant's homestead is \$3,500 or less, then 100% of the property tax is refunded. If the taxable value is more than \$3,500, the credit/refund is equal to the percentage relationship between \$3,500 and the taxable value. The taxable value appears on your tax bill.

For example: Taxable Value: \$10,500 Property Tax Paid: \$480

Percent of taxes refundable = $33.33\% (.3333) \times \$480 = \text{credit of } \160

Note: If both husband and wife are blind, the allowance is \$7,000.

Blind persons also qualify as totally and permanently disabled and may be entitled to a larger credit under that category. Blind persons who rent may claim a credit only under the totally and permanently disabled category. Homeowners who are blind will use Michigan Department of Treasury Form MI-1040CR-2 to file for a credit. Renters who are blind will use the Form MI-1040CR to file for a credit.

VETERANS, ACTIVE MILITARY PERSONNEL, OR THE SURVIVING SPOUSE OF A DECEASED VETERAN

If you are a Michigan homeowner and qualify as a veteran, active military personnel, or the surviving spouse of a deceased veteran under one of the veteran status classifications, you may be eligible for a related homestead property tax credit. Unless you have a service-connected disability or are the surviving spouse of a person with a service-connected disability or of a veteran deceased while in service, your household income may not exceed \$7,500.

It is possible that persons qualifying under this category are entitled to a larger credit as a senior citizen, general taxpayer, or as a totally and permanently disabled person. Such claims are based on household income instead of a taxable value allowance. You should calculate your credit under all the categories you qualify for and claim the one providing the largest credit.

Veterans Status and Value Allowance		
Filing Status	Percentage of Disability	Taxable Value Allowance
A. Veteran (or surviving spouse) with service-connected disability	10% - 50%	\$3,500
	60% - 80%	\$4,000
	90% - 100%	\$4,500
B. Veteran of wars before World War I, pensioned veteran or surviving spouse, or active military personnel		\$3,500
C. Surviving spouse of a nondisabled or nonpensioned veteran		\$2,500
D. Surviving spouse of veteran deceased while in service		\$4,500

If you are eligible to file Form MI-1040CR-2, your tax credit is based upon the taxable value allowance: taxable value ratio which was explained in the section regarding blind property taxpayers.

For example:

You are a veteran with a 10% disability. Your home has a taxable value of \$10,500, with property taxes of \$525. As a disabled veteran, you have a taxable value allowance of \$3,500.

The credit is computed as follows:

$$\text{Percent of taxes refundable} = 33.33\% (.3333) \times \$525 = \text{credit of } \$175$$

Eligible military personnel, veterans, and their surviving spouses who rent a homestead are entitled to a credit that is computed in a manner similar to the credit allowed those who own their home. The taxable value of a rented homestead is determined by dividing the taxes in rent (20% of rent paid in the 2009 tax year) by the property tax rate of the homestead being rented. The property tax rate can be determined by contacting your local assessor.

QUESTIONS AND ANSWERS

WHAT IS HOUSEHOLD INCOME?

For determining your homestead property tax credit and home heating credit, household income includes all income subject to the federal income tax, plus all other income specifically exempted by the federal income tax law.

The following are the more common forms of income not subject to the federal income tax which must be included in household income for purposes of computing a refund or credit:

- 1. Social Security and railroad retirement benefits.
- 2. Veterans pensions and disability payments.
- 3. Other pensions and annuities.
- 4. Interest on state and local obligations.
- 5. Worker's compensation benefits.
- 6. Cash public assistance and other payments on your behalf (FIP or DHS benefits).
- 7. Child support payments.
- 8. Gifts in cash or kind in excess of \$300.
- 9. Sick pay.
- 10. Scholarship, stipend, grant, or GI bill benefits.
- 11. Compensation for damages to character or personal injury or sickness.
- 12. An inheritance, other than an inheritance from your spouse.
- 13. Proceeds of a life insurance policy paid on the death of the insured, other than a policy on your spouse.
- 14. Reimbursements from dependent care and/or medical care spending accounts.

Not included are the following:

- 1. Amounts received from a governmental unit for repair or improvement of your homestead.
- 2. Surplus foods.
- 3. Chore service payments (such payments are income to the provider but not to the person receiving the benefits).
- 4. State and local income tax refunds, including homestead property tax credits (farmland preservation tax credits or refunds must be included in household income).
- 5. Amounts deducted from Social Security or railroad retirement benefits for Medicare premiums.
- 6. Health, life, and accident insurance premiums paid by your employer.

- 7. The first \$300 of income from gambling, bingo, lottery, or prizes and awards.
- 8. Energy assistance grants and energy assistance tax credits.
- 9. The first \$300 in gifts, cash, or expenses paid on your behalf by a family member or friend.
- 10. Government payments to a third party, such as your doctor.
- 11. Stipends received by a person 60 years of age or older for acting as a foster grandparent or a senior companion.
- 12. Loan proceeds.
- 13. Inheritance from a spouse.
- 14. Life insurance benefits from a spouse.

Taxpayers may reduce household income by subtracting:

- 1. Federal adjustments to income, including:
 - Educator expenses.
 - Certain business expenses of reservists, performing artists, and fee-based government officials.
 - IRA, SEP, SIMPLE, or Keogh plan deductions.
 - Student loan interest deductions.
 - Moving expenses into or within Michigan.
 - Deductions of self-employment tax.
 - Self-employment health insurance deductions.
 - Tuition and fees.
 - Penalties on early withdrawal of savings.
 - Alimony paid.
 - Medical savings account deductions.
- 2. Medical insurance or HMO premiums you paid for yourself and your family (not Medicare), including medical insurance premiums paid through payroll deduction.

WHAT CONSTITUTES A HOMESTEAD?

The term homestead means the place where you live, whether it is owned or rented, and includes a mobile home or lot in a trailer park. You may have only one homestead at any given time, and you must be the occupant of the property for it to be your homestead. To qualify for a credit, your homestead must be in Michigan. A vacation or income property you own does not qualify as your homestead.

WHAT KINDS OF PROPERTY TAXES ARE ELIGIBLE FOR CREDIT?

The property taxes you may claim for your 2009 credit are the property taxes on your principal residence for which you were billed in 2009, regardless of when you paid them. An administration fee of 1% or less may be included, but not penalties or interest. Special assessments may be included only if they are based on taxable value and either applied to the entire taxing jurisdiction, or are levied for police, fire, or advanced life support in an entire township except for the village portion of a township.

A TAXPAYER'S GUIDE

Real property classified as agricultural land for property tax purposes is part of a person's homestead under any of the following conditions:

1. If the gross receipts from the taxpayer's agricultural or horticultural operations are greater than household income, all property taxes on the farmland adjacent and contiguous to the taxpayer's home, including taxes on unoccupied farmland, may be claimed for credit.
2. If gross receipts from the taxpayer's agricultural or horticultural operations are less than household income and the taxpayer has lived in his or her home for more than ten years, the credit for property taxes is available for the property taxes on the home and on land lived on which is adjacent or contiguous to the home. If a taxpayer in this category has not lived on the land for ten years, then only the taxes on the home and five acres of adjacent and contiguous land may be claimed for credit.

Persons living in a mobile home park may claim credit on the \$3.00 per month specific tax on trailer lots and 20% of lot rental. Renters of housing subject to local property taxes should use 20% of rent paid in lieu of property taxes in the computation of the credit.

If you are a renter of tax-exempt housing which pays service fees instead of property taxes to the municipality in which you live, you should use 10% of your rent in calculating your property tax credit.

If you are a permanent occupant of a nursing home, foster care home, or home for the aged that is subject to property taxes, you may consider the facility as your homestead. You may use the allocated share of the property taxes levied on the facility as taxes eligible for credit. Your manager should be able to tell you what your allocated share is. If your facility care charges are paid directly to the facility by a government agency, only that portion of the charges paid by you that are equal to or in excess of the allocable share of property taxes may be used in calculating the credit.

Property taxes on a homestead that is bought or sold during the year must be prorated according to the number of days occupied, regardless of any agreement entered into by the parties involved as to who shall pay the taxes. For example: if the 2009 taxes on the home you sold on June 30 amounted to \$600 for the entire year, you may use \$300 as taxes eligible for credit.

HOW CAN I APPLY FOR A REFUND?

Tax refunds can be obtained by filing the tax credit claim Form MI-1040CR for general claimants, senior citizens, totally and permanently disabled persons, and for persons who are either paraplegic, hemiplegic, or quadriplegic. Please remember to include information concerning the taxable value of your homestead on the proper line of your tax form to help assure the prompt processing of your claim. Active military personnel, eligible veterans or their surviving spouses, and blind persons file Form MI-1040CR-2 if it gives them a bigger credit than from Form MI-1040CR. All individuals claiming a refund should file their claim with their Michigan income tax return. Your 2009 Michigan income tax return must be filed by April 15, 2010.

The period for amending your claim for homestead property tax credit is four years from the date set for filing the original claim. If you do not have to file a Michigan income tax return, but are eligible for property tax relief, you should file your claim as soon as you know the amount of your 2009 homestead property taxes and household income. The Michigan Department of Treasury will send you the refund to which you are entitled.

If you have any questions about the homestead property tax relief program or about completing any state income tax forms, see the "Michigan Tele-Help" system section discussed at the end of this booklet.

HOME HEATING CREDITS

In 1978, the Michigan Legislature enacted a one-year program to help individuals meet some of the rising costs for heating their homes. The Home Heating Assistance Program was extended by 1979 PA 126 for the 1979 and 1980 tax years and by 1981 PA 152 for tax years 1981 through 1983.

Since 1984, this program has been extended and modified on several occasions, most recently by 2001 PA 169. This law extended the credit indefinitely, contingent on federal low-income home heating energy assistance. This program gives low-income persons the opportunity to claim a credit against their state income tax for part of their home heating costs. In 2009, approximately \$103 million in tax credits were claimed, including almost \$20 million in one-time \$50 supplemental credits that were due to additional federal funding for energy assistance. Approximately 450,000 low-income families received the credit in 2009. Before taking the supplemental payment into consideration, each credit averaged about \$185.

People who live in a nursing home, an adult foster care home, a home for the aged, or a substance abuse center are not eligible for this tax credit. You also are not eligible if you are a full-time student and are claimed as a dependent by another.

There are two methods available for computing a home heating credit: the standard method and, for individuals with very low incomes and high heating costs, an alternative formula. In calculating your credit using the standard method, the amount of the home heating tax credit is determined by first figuring the amount of your household income and the number of exemptions you can claim. Then, use the following table to find the standard allowance (the maximum credit permitted) for your total exemptions claimed. The figure on the right of the table (income ceiling) shows the maximum income which can be earned to be eligible for the credit.

Standard Allowances		
Your Exemptions	Standard Allowance	2009 Income Ceiling
0 or 1	\$418	\$11,929
2	\$562	\$16,043
3	\$706	\$20,158
4	\$850	\$24,272
5	\$994	\$28,387
6 or more	\$1,138	\$32,500
	+ \$144 for each exemption over 6	+ \$4,114 for each exemption over 6

Across from your number of exemptions is your standard allowance. Your credit is your standard allowance minus 3.5% of your household income. The home heating credit is funded by a block grant from the federal government. In order to limit credits to the available amount of federal funding, 2009 credits will be multiplied by a proration factor of 65%. A claimant whose heating costs are included in his/her rent, should multiply the result of the preceding calculation by 50%. You will not get a credit if your household income exceeds the amount in the income ceiling column at the right of the table.

SAMPLE COMPUTATION

John and Mary Smith had a household income of \$9,200. They had two children and were entitled to four exemptions.

Standard Allowance	\$850.00
Less: 3.5% of household income (.035 x \$9,200)	- \$322.00
Home Heating Credit Subtotal	\$528.00
Proration Factor	<u>x .65</u>
Home Heating Credit (rounded to the nearest dollar)	\$343.00

ALTERNATIVE CREDIT

To determine if you qualify for the alternative credit formula, look at the table below and see if your household income exceeds the maximum specified on the right for the number of exemptions you are eligible to claim:

Your Exemptions	Maximum Income
0 or 1	\$12,590
2	\$16,942
3	\$21,298
4 or more	\$22,091

To compute the alternative credit, you must determine your total heating costs for the 12 consecutive monthly billing periods ending during October of the tax year (November 2008 to October 2009). Then you reduce your total heating cost (maximum allowed in 2009 is \$2,430) by 11% of your household income. Your home heating credit will be 70% of this amount. For the 2009 tax year, credits will be multiplied by a proration factor of 65%. If your claim is for less than 12 months or your heating costs are currently included in your rent, you cannot claim an alternative credit.

SAMPLE COMPUTATION

Bill and Helen Smith had a household income of \$7,500 and were entitled to three exemptions. Their total heating cost was \$1,500.

Fuel cost	\$1,500.00
Less 11% of household income (.11 x \$7,500)	<u>-\$ 825.00</u>
Balance	\$ 675.00
Multiply by 70%	<u>x .70</u>
Home Heating Credit Subtotal	\$ 472.50
Proration Factor	<u>x .65</u>
Home Heating Credit (rounded to the nearest dollar)	\$ 307.00

Even if you qualify for the alternative credit, you should also calculate your credit using the standard method and claim the larger credit.

HOW TO APPLY

You must claim a Home Heating Credit on Form MI-1040CR-7. To receive your 2009 credit, claims must be filed by September 30, 2010. If your claim is approved, the Michigan Department of Treasury will send the credit directly to your enrolled heating provider.

If your credit is for more than you owe your energy provider, you must check the box on line 43 of the Michigan Home Heating Credit Form (MI-1040CR-7) if you want the overpayment refunded to you. If you were a Department of Human Services recipient who received any heat assistance other than the Home Heating Credit before December 31, 2009, your heat provider will keep any overpayment. Your heat provider must keep this overpayment for nine months and apply it to any future bills that you may have during that period of time. At the end of nine months, if you still have an overpayment, your heat provider will refund the balance to you.

If you rent, you are still eligible for the credit. If your heating costs are included in your rent payment, your credit will be reduced by 50%.

MICHIGAN BUSINESS TAX

The Michigan Business Tax (MBT), established by 2007 PA 36, became effective January 1, 2008. It replaced the Single Business Tax (1975 PA 228), which was repealed by an initiated law (2006 PA 325).

The Michigan Business Tax has two major components in its base: 1) a business income tax imposed at a rate of 4.95%, and 2) a modified gross receipts tax (gross receipts less purchases from other firms) imposed at a rate of 0.8%. Insurance companies and financial institutions are taxed under separate provisions.

The MBT retains many of the best qualities of the former SBT, including most of the former act's tax credits. It improves on the SBT by placing more reliance on profits, rewards business investment in Michigan, and promotes investments in research and development. The Michigan Business Tax maintained and made significant improvements to the small business alternative filing credit. The act also created a new, 35% industrial personal property tax credit, and, in conjunction with 2007 PAs 37-40, exempted industrial personal property from the 6-mill state education tax and the 18-mill local school levy. Commercial personal property is also exempted from 12 mills of a local school district's 18-mill levy.

As a replacement for the use tax on certain services that were scheduled to go into effect in December 2007, an MBT surcharge was adopted (2007 PA 145). The surcharge is equal to 21.99% of the taxpayer's MBT liability calculated before credits. The surcharge is capped at \$6 million for any one taxpayer. The surcharge will be eliminated in 2017, unless Michigan personal income declines in each of the prior three years.

If the total net cash payments received in a fiscal year exceeds certain revenue thresholds, 60% of the excess will be returned to the taxpayers and 40% of the excess will be deposited in the state's rainy day fund. Net cash payments equal all cash and estimated payments received during the year minus issued refunds and excluding revenue collected from insurance companies.

KEY FEATURES OF THE MBT

The major features of the Michigan Business Tax are:

1. The MBT imposes an income tax on every taxpayer with business activity in the state. The tax is imposed on the business income tax base after allocation or apportionment at the rate of 4.95%.
2. The act imposes a modified gross receipts tax on the privilege of doing business in this state. The modified gross receipts tax base is determined by taking a taxpayer's gross receipts less purchases from other firms. The gross receipts tax rate is 0.8% of the apportioned tax base.
3. Insurance companies and financial institutions are taxed under separate provisions. A special tax on insurance companies is levied at a rate of 1.25% of gross direct Michigan premiums. A financial institutions tax is levied at a rate of 0.235% of net capital.
4. The MBT requires unitary business groups to file a combined return. A unitary group is generally one with functional integration and centralized management. More specifically, a unitary group is a group of U.S. persons, one of which owns or controls more than 50% of the ownership interest, and that has business activities that either result in a flow of value between or among persons in the business group, or that has business activities or operations that are integrated with, are dependent on, or contribute to each other.

5. The act creates a number of new tax credits, chief of which includes a Michigan compensation and Michigan investment credit. For the 2009 tax year, the compensation credit is 0.370%. The investment tax credit is 2.9%.
6. A research and development tax credit is available for the firm's Michigan research and development expenses. For the 2009 tax year, the credit will be 1.90%. A new research and development credit is also available for taxpayer's contributions to eligible, MEGA-approved, research and development businesses. The credit is equal to 30% of the contribution up to \$300,000.
7. The MBT created a refundable 35% industrial personal property tax credit. In addition, related legislation exempted industrial personal property from the 6-mill state education tax and the 18-mill local operating millage. Commercial personal property is exempted from 12 mills of the 18-mill local operating millage.
8. The MBT retains a number of tax credits available under the former SBT. These include the start-up business credit, small business credit, venture capital investment credit, charitable contribution credit, worker's compensation credit, community foundation credit, homeless shelter credit, Next Energy alternative energy credit, the MEGA credit, brownfield credit, renaissance zone credit, and the historic preservation credit. The MBT also provides certain targeted credits. These include a new entrepreneurial credit, and a new credit for large charitable contributions to art, historical, or zoo institutions. Additional credits were added for the film industry, and for certain anchor businesses, affordable housing projects, semiconductor manufacturing firms, and certain battery cell manufacturing facilities, among others.
9. The MBT retains the \$350,000 filing threshold. The small business tax credit allows a firm with no more than \$20 million in gross receipts, \$1.3 million in adjusted business income, and \$160,000 in any owner's compensation to claim a credit equal to the amount by which the tax exceeds 1.8% of adjusted business income.
10. Public Act 145 of 2007 amended the MBT to create a temporary MBT surcharge equal to 21.99%. A higher surcharge is imposed on financial institutions. The surcharge is designed as a replacement for the short-lived use tax on services. The surcharge is capped at \$6 million for any one taxpayer. The surcharge will expire on January 1, 2017, if Michigan personal income growth exceeds 0% in 2014, 2015, or 2016.
11. The Michigan Business Tax uses a single sales factor to allocate the proportion of a multi-state firm's business activity in Michigan. MBT business activity is sourced on the basis of market, or where the recipient receives the benefit. (Under the SBT, the business activity, other than the sale of tangible personal property, was only sourced to Michigan if, based on costs of performance, a greater proportion of the business activity was performed in Michigan. This commonly resulted in the sourcing of business activity back to the origination state.) The MBT also eliminates throwback sales. Sales may be sourced to another state if that state has the authority to tax, even if it does not do so.

NEW STATE TAX LAWS

INCOME TAX

2009 PA 134—The act amended the Income Tax Act of 1967 to create a new tax credit for charitable contributions to the Michigan Education Trust (MET) program.

2009 PA 195—The act eliminated the sunset on the vehicle donation credit.

MICHIGAN BUSINESS TAX

2009 PAs 5 and 6—The acts amended the Michigan Business Tax Act to increase the number of credits available for certain cell manufacturing facilities.

2009 PAs 8 and 9—The acts provided for certain transitional flexibility in the treatment of initial MBT estimated payments.

2009 PA 26—The act amended the Michigan Business Tax Act to increase the credits available for certain cell manufacturing facilities, and revised the credit for certain research and development expenses.

2009 PA 90—The act revised the MBT credit for the construction and operation of a photovoltaic energy facility.

2009 PA 110—The act created a new credit for certain facilities that manufacture integrated power, smart control, and storage systems.

2009 PA 123—The act amended the Michigan Business Tax Act to revise the number of high-tech Michigan Economic Growth Authority credits that may be available in any one year.

2009 PA 134—The act established a new MBT credit for charitable contributions to the Michigan Education Trust (MET) program.

2009 PA 141—The act allowed the use of historic tax credit carry forwards to offset recaptured credits.

2009 PAs 159 and 160—The acts amended the MBT to expand the anchor company credit eligibility standards.

2009 PA 161—The act authorized the establishment of additional certified technology parks.

2009 PA 162—The act allowed all or a portion of a certified technology park district to be designated a certified alternative energy park.

2009 PA 185—The act revised the MBT to provide an alternative filing method for initial filers with tax years that do not coincide with the calendar year.

2009 PA 192—The act allowed historic preservation credits available in future years to be moved up to the 2009 and 2010 calendar years.

SALES AND USE TAX

2009 PA 53—The act amended the General Sales Tax Act to provide an exemption for aircraft and aircraft components manufactured in Michigan.

2009 PA 54—The act created an exemption for aircraft and aircraft components manufactured in Michigan in the Use Tax Act.

School District Code List (See MI-1040 or MI-1040CR, line 4.)

Michigan public school districts are listed alphabetically with code numbers to the **left** of the names. When more than one district has the same name, the county or city name in parentheses helps you choose the right district. **Residents**, choose the code for the district where you lived on December 31, 2009. Call your local assessor or treasurer if you do not know your school district name. **Nonresidents**, enter "10000" in the school district code box.

This booklet was prepared in 2010 to provide taxpayers with useful information about their 2009 state taxes. It is not meant as a substitute for Michigan Department of Treasury tax instruction booklets.

The tax forms have been included as an example for taxpayers. Anyone using these forms to file their state income tax and property tax credits should consult the department's instruction booklets. Any references on these forms to page numbers refer to the department's instruction booklets and not the Taxpayer's Guide.

Use Tax

Every state that has a sales tax has a companion tax for purchases made outside that state by catalog, telephone, or Internet. In Michigan, that companion tax is called the “use tax,” but might be described more accurately as a remote sales tax because it is a 6 percent tax owed on purchases made outside of Michigan.

Use tax is due on catalog, telephone, or Internet purchases made from out-of-state sellers as well as purchases while traveling in foreign countries when the items are to be brought in to Michigan. Use tax must be paid on the total price (including shipping and handling charges).

How to Pay Use Tax

Use Worksheet 1 below to calculate your tax and enter the amount of tax due on line 25 of MI-1040.

Worksheet Calculation

Line 1: For purchases of \$0-\$1,000, if you know the amount, multiply your total purchases times 6 percent (0.06) and enter the amount on Line 1, **or**

For purchases under \$1,000, if you have incomplete or inaccurate receipts to calculate your purchases, you may use Table 1 - Use Tax to estimate your taxes. (See the following example.)

Line 1 should contain a number unless you made no purchases under \$1,000 subject to the use tax. If we later determine that you owe use tax, you may be subject to penalty and interest.

Line 2: In all cases, if a single purchase is \$1,000 or more, you must pay 6 percent use tax on those purchases.

Example: Kurt ordered a computer from a catalog retailer in New York for \$1,437.50. Kurt also purchased items over the Internet for less than \$1,000 during the year, but lost his receipts. He is sure he did not pay Michigan sales tax. Kurt’s AGI is \$46,500. Kurt would complete Worksheet 1 as follows:

Line 1: Kurt selects \$36 from the table based on his AGI \$36

Line 2: Kurt enters \$1,437.50 x 6 percent \$86.25

Line 3: Total use tax due \$122.25

Kurt would enter \$122 (no cents) on his 2009 MI-1040, line 25.

Estimating your taxes does not preclude Treasury from auditing your account. If additional tax is due, you may receive an assessment for the amount of the tax owed, plus applicable penalty and interest.

TABLE 1 - USE TAX

AGI*	Tax
\$0 - \$10,000	\$4
\$10,001 - \$20,000	\$12
\$20,001 - \$30,000	\$20
\$30,001 - \$40,000	\$28
\$40,001 - \$50,000	\$36
\$50,001 - \$75,000	\$50
\$75,001 - \$100,000	\$70
Above \$100,000....	Multiply AGI by 0.08% (0.0008)

* AGI from MI-1040, line 10.

Use Tax on the Difference

If you paid at least 6 percent to another state on your purchase, you do not owe use tax to Michigan. If you paid less than 6 percent, you owe the difference.

Note: The full 6 percent use tax is owed on purchases made in a foreign country.

**For more information, visit
www.michigan.gov/taxes.**

WORKSHEET 1 - USE TAX

Line 1: Itemized purchases of \$0 to \$1,000 x 6 percent (0.06) **OR** Use Tax table amount \$ _____

Line 2: Single purchases \$1,000 or more x 6 percent (0.06)... \$ _____

Line 3: Total Use Tax Due (add Lines 1 and 2)..... \$ _____

Enter amount from Line 3 above on your 2009 MI-1040, Line 25. If the amount on Line 3 is 0, enter “0” on your 2009 MI-1040, Line 25.

2010 U.S. CENSUS - IMPORTANT INFORMATION For All Michigan Residents Including “Snowbirds”

The information you provide on the 2010 U.S. Census Questionnaire you will receive in March or April is kept confidential by the United States Census Bureau and not shared with any other entity. Completing your census questionnaire will contribute to Michigan receiving its fair share of federal spending and political representation. **People with more than one residence should only be counted on the census questionnaire delivered to the address where they spend the largest part of the year.**

If you spend the largest part of the year in Michigan and the remaining part in another state, you should:

- (1) Enter zero on the census questionnaire delivered to your non-Michigan address if no one spends the largest part of the year there and write “Usual Residence Elsewhere” so the Census Bureau knows why you are saying that no one is living there. Leave the rest of that census questionnaire blank.
- (2) Make sure you are included on the census questionnaire for your Michigan residence. If you do not find a census questionnaire when you return home, you can wait for a census worker to come to your home.

Many snowbirds answer the census questionnaire incorrectly because it simply asks for the number of people “living or staying” at each residence on April 1. Unless they are experts on census terminology, snowbirds may not realize that “living” at a certain place on April 1st means “having it as your usual residence,” and “staying” at a certain place means “staying there while having no usual residence elsewhere.”

FOR MORE INFORMATION ABOUT THE CENSUS, go to www.michigan.gov/census2010 or call (866) 861-2010.

Instructions for Schedule CT Michigan College Tuition and Fees Credit

General Information

A nonrefundable Michigan income tax credit for college tuition and uniformly-required fees paid on behalf of a student is available for 2009. Uniformly-required fees are those fees which are paid by all students attending the named college or university.

To claim this credit, you must be a permanent resident of Michigan at the time the tuition and fees were paid, have adjusted gross income of \$200,000 or less, and file a *Michigan Individual Income Tax Return* (Form MI-1040).

The student(s) must attend a Michigan institution of higher education which certifies that tuition will not increase in the following academic year by more than the preceding year's rate of inflation. See the list below. If the school is not listed, you may not claim the credit.

The amount of the credit is limited to 8 percent of tuition and fees paid per student. The credit cannot exceed \$375 for each student in each tax year and can only be taken for four years per student.

Students attending an institution providing programs solely for sectarian instruction or religious worship are not eligible for the credit.

When computing the credit remember

- The student must be working on an undergraduate degree or certificate.
- Use the amount of tuition and fees actually paid by the claimant during the tax year. Tuition and fees paid with student loan funds are eligible for the credit. Do not include the amount covered by MET contracts, scholarships, grants, etc.
- The cost of books, room and board, transportation, etc., are not considered tuition and fees paid and therefore cannot be used in the computation.
- The credit cannot exceed \$375 per student, even if two or more individuals have contributed to one student's education.
- Amounts paid into (or under) a MET contract do not qualify as tuition paid.

Treasury may request proof of tuition and fees paid. Failure to attach your *Schedule CT* to your MI-1040 can delay processing of your return.

If the college or university is not listed, you cannot claim the credit.
